

State Side Remediation is providing Flood Damage and Water Damage Restoration Services across Australia

Water, Flood & Mould Damage Remediation & Restoration Team in Australia offering Dehumidifiers and Air Scrubbers

State Side Remediation formed 10 years ago as a humble husband and wife team and have now grown to be Australia's number one Water Damage Remediation, Flood Damage Remediation, Mould Removal, Mould Damage Restoration, Forensic Cleaning and Meth Decontamination company in Australia.

Offering a vast range of services, they are your first call when it comes to decontamination or remediation of any kind. Their water damage remediation & flood damage remediation professionals are industry experts and are highly qualified, ensuring best practices are strictly adhered to. Mould removal and mould damage restoration are now also available, as well as forensic cleaning Australia and biohazard cleaning Australia. They also offer a range of high quality dehumidifiers and air scrubbers to promote healthy living environments.

State Side Remediation can provide you an estimate for mould clean up services after a mould assessment and protocol have been set by an environmental company. A protocol is an outline of how the remediation needs to be handled.
