Professional Rug Cleaning Sydney Service

## Sydney City Rug Cleaning

Rugs are beautiful and make our home more lively and sunny, they are furnishing accessories in all respects and, since they often have quite high prices, you must learn to take care of them right away to keep them soft and bright for a long time.

A rug gives personality and warmth to the room and is a real choice of decor. Unfortunately, however, it attracts dust like a magnet, retains the moisture that rises from the floor and if it gets stained, you're racing against the clock to blot it up before it sets in.

Being able to keep the colors of a carpet bright and lively corresponds to its longevity. When exposing it to the open air, be careful not to leave it for too long in direct sunlight, which could fade it.

Thoroughly clean your carpet at least once a year. Usually the indicated period is that of the arrival of the warm season, but for a few years we have been washing many carpets even in winter. For this operation the only advice is to contact a specialised center capable of guaranteeing a deep wash without damaging the carpet.

The real enemy of carpets, in addition to dust, is humidity. For this reason, we do not recommend placing plants or vases containing flowers on the carpet. If the carpet gets wet, you must immediately dry it by dabbing it with absorbent paper and then let it dry in the open air. For a very wet carpet, we recommend taking it immediately to a specialised cleaning company, this because the water could "mix the colors" irreparably ruining the design of the carpet.
