

# SYSPRO named a Momentum Grid leader in G2 report for ERP systems

SYSPRO, a leading global provider of ERP software, has been included in G2's Spring 2021 Momentum Grid Report for ERP systems. The Report provides a comparison of ERP vendors based on a software buyer composite score of five main criteria: employee growth, revenue growth, social growth, web growth, and year-over-year change. According to G2, products in the Leader tier in the Momentum Grid rank in the top 25 percent of their product category.

Within this year's report, customers ranked SYSPRO user satisfaction at 86 percent. According to Paulo De Matos, Chief Product Officer at SYSPRO, "As a customer centric business with deep industry experience, we are driven to deliver superior service and industry specific functionality for Manufacturers and Distributors. The trajectory of our momentum score is a testament to our goal to seamlessly empower customers to take the next step – whether it is expanding into new territories, adding new product lines, transforming business processes, or driving innovation."

All customer reviews on G2 are unbiased and based on actual user experience. A recent customer review describes SYSPRO as a powerful ERP software that truly understands and supports all forms of manufacturing, "SYSPRO is a complete solution for manufacturing from start to finish. From purchasing to sale, the various modules are fully integrated for seamless processing and movement of our raw material, WIP, and finished products that mirrors how we actually manufacture out on the plant floor."

G2 is a well-known technology marketplace where businesses discover, review, and manage technology to make smart buying decisions. For more information on the G2 Momentum Grid, visit this page <https://www.g2.com/reports/6b00e46c-f3f8-4944-8fd0-6330f0fc0d94/preview?tab=method>
