

The Good Dentist Kicking Goals As Newcastle Jets Club Dentist

Garreth McBride of The Good Dentist in Newcastle has dreamt of becoming the Club Dentist at the Newcastle Jets since he arrived in Australia in 2012. We suspect it might have had something to do with following his Liverpool FC hero Emile Heskey to Newcastle when Heskey joined the Jets, although Garreth refuses to confirm or deny this.

The soccer die-hard (or 'football' as he prefers) is now having his dreams realised after he signed a partnership with the Newcastle Jets in April 2019 to become their official Club Dentist. The partnership means that Garreth is the emergency dentist for any players in the A League, W League and Juniors squads as well as their preferred dentist off the field.

Some of the players and families of the corporate team were already patients at The Good Dentist so Garreth was thrilled when the Newcastle Jets approached him with the offer.

"I'm a fairly passionate member of the Jets community," says Garreth. Football was my first love and I've always dreamt of being involved in the Newcastle Jets in whatever capacity I could. I want the best for the players and members so its great that I can offer them assistance in the best way I know how."

The Good Dentist is offering Newcastle Jets 2018/19 Members who want to get their teeth done in the off-season 15% off check-ups and any subsequent treatments if required. Members with private dental cover will pay no gap on the check-up and 15% off subsequent treatments, if required. Just mention you are a Jets member upon booking and remember to bring in your Newcastle Jets 2018/19 Membership Card to get the discount.
