

## The new and iconic JURA GIGA 6

Perfection, precision, professionalism in a new dimension

JURA is pleased to announce the highly anticipated GIGA 6 is launching in Australia in March 2020. Leading the way and redefining the concept of automatic coffee machines, the GIGA 6 is a top-of-the-line professional coffee machine for household use. George Liakatos, Managing Director of JURA Australia says, "The GIGA 6 is brimming with the latest technology for outstanding results. Made with top-quality materials and with Swiss precision, the GIGA 6's clear design features radiate power and expertise. I can confidently say this is the best coffee machine out there in the world to date, and we're thrilled to bring it to Australia." The GIGA 6 has it all – and the icing on the cake is that coffee lovers can choose from an impressive 28 different specialties and prepare two perfect barista quality specialty coffees simultaneously at the touch of a button – always freshly ground, not capsuled. The Swiss premium brand has incorporated the knowledge and expertise it has gained from producing over 5 million automatic coffee machines into this luxury model, along with the latest technological developments, guaranteeing exceptional functionality, reliability and quality. Key Features of the new JURA GIGA 6: Double power and double action – Two heating systems and two pumps, allowing for two different specialties to be prepared simultaneously. 28 different specialties – Endless options including popular drinks such as café latte, flat white or cortado. The art of heating and frothing – Three different coffee brewing processes that come to life when preparing various trend specialties. 10 temperature levels – Milk and milk foam can be tailored to individual taste through programming. Automatic Grinder Adjustment (A.G.A.) – JURA's new innovation, two electronically adjustable ceramic disc grinders for perfect coffee grounds to the optimum fineness every time. Simple, intuitive operation – Blue Crystal Rotary Switch and large, 4.3" high-resolution touchscreen colour display featuring artificial intelligence. Artificial intelligence – A self-learning algorithm identifies each user's personal preferences and adapts the start screen accordingly, showing two, five or eight preferred specialties. Intelligent preheating – In a world first, JURA has developed intelligent preheating technology to ensure that even after long pauses between preparing drinks, the very first coffee is piping hot when poured into the cup. Operate the machine from your smartphone – Coffee can be made straight from your smart device thanks to Siri and the new Jura Operating Experience (J.O.E.) app. All customisation options are available via voice requests at the tap of your smartphone via Siri. New drip tray design – Engineers paid special attention to the redesign of the drip tray to prevent spills and mishaps. The new dishwasher-safe drip tray can easily be removed, emptied and reinserted with just one hand. Top quality materials – Solid front section made of 3 mm-thick aluminium and a substantial aroma preservation cover made of chrome-plated, die-cast zinc. 5-star handling – Incorporated down to the very last detail, including during cleaning and maintenance. The JURA GIGA 6 is available now at selected Harvey Norman stores and other selected retailers for RRP \$6,490. About JURA: JURA's products stand for innovation, ease of use and sustainability. JURA believe in the perfect cup of coffee, using fresh beans, freshly ground and extracted at the touch of a button. The product range includes both machines for domestic use and professional models for the office and food service industry. In recent years the long-established Swiss brand has grown to become a global player, operating in around 50 countries. [www.au.jura.com](http://www.au.jura.com)
