

## Tough Corp Launches Sonim Range Ultra-rugged Mobile Phones and Workforce Management Systems

Tough Corp announces the launch of six new ultra-rugged mobile phones from Sonim Technologies (holders of the Guinness World Record for the World's Toughest Mobile Phone). The Sonim XP5300 Force 3G is a premium, ultra-rugged, IP68 rated 3G UMTS phone designed for professionals and adventurers who are exposed to the most hostile environments every day. Since it was engineered with built in safety features and backed by Sonim's industry-leading 3-Year Comprehensive Warranty, transportation enterprises and mountaineers alike know they can count on the extreme reliability of the Sonim XP5300 FORCE 3G. With the longest GPS tracking time of any mobile phone (up to 29 hours), the Sonim XP3340 SENTINEL features a dedicated red panic button and an innovative man-down sensor to detect emergencies and accidents and automatically call for emergency response. Built for Life – no matter how harsh the situation, the Sonim XP3 SENTINEL is the ultimate safety phone for Lone Workers in extreme environments. Fully water submersible (IP-67 rated), MIL-810G certified and equipped with high performance GPS, outstanding battery life, a LED torch, a 2MP camera and a state of the art accelerometer based Man-Down sensor. The Sonim XP3 Sentinel goes beyond extreme durability. The Sonim XP3.10 Enduro Z1 has been specifically designed for the use in extremely hazardous environments. Developed by Ecom instruments in cooperation with Sonim Technologies, this ATEX Zone 1/21 certified handset enables workers in the oil and gas sector, such as refineries and fuel depots, to stay connected and protected at all times in highly explosive areas with temperatures ranging from -20C to +55C. The Sonim XP3.10 Enduro Z2 has been specifically designed for the use in the toughest conditions with an IP57 rating. Developed by Ecom instruments in cooperation with Sonim Technologies, the ATEX certified Zone 2 handset enables workers in the energy sector and sewage plants to stay connected and protected at all times in areas with temperatures ranging from -20C to +55C. The Sonim XP3.20 Quest Pro Z2 was designed and engineered to be the most reliable safety tool for workers in ambient conditions. Developed by Ecom instruments in cooperation with Sonim Technologies, this IP-67 rated device is certified Intrinsically Safe Zone 2, and combines premium features with Sonim's renowned ruggedness. The Quest Pro Z2 keeps power plant employees connected while monitoring Oil & Gas pipelines in hazardous environments. "I take great pleasure in announcing the relationship between Sonim Technologies and Tough Corp. This addition will compliment our existing range of rugged computers, rugged laptops, rugged PDAs, rugged keyboards and rugged printers and create exciting new opportunities," said Joel Taylor, Tough Corp's Brand Manager for Handheld Devices. The Sonim range of ultra-rugged mobile phones are designed specifically for Construction, Mining, Utility, Emergency Workers as well as trades people working in harsh, rugged environments. Tough Corp is a leading provider of rugged laptops, rugged tablets and rugged PDA's and are well placed to service all rugged mobile printing and mobility requirements no matter how tough the environment.
