

# TradiePad Is Now Australia's #1 Tradies App Integrator

Teaming up with some of the world's premier tech companies, TradiePad now provides the largest range of tradies apps in Australia, finding exactly the right "tradies app" for your business.

TradiePad's continual growth and expansion in the trades & construction industry has enabled the Australian owned and operated company to become the #1 cloud integrator for tradies app solutions in the country. With close working relationships with some of the world's premier software and tech companies including Workflowmax, Tradify, ServiceM8, IAuditor, Deputy, Google, Formitize, Apple, Xero, MYOB, and more, TradiePad is now able to offer the most full-featured trade specific job management systems in Australia. Created by Australian tradesmen for Australian tradesmen, TradiePad allows businesses in the trades & construction industry to eliminate paperwork from their daily business activities and operate in a more efficient manner. TradiePad is not a single app, but a cloud integrator and consultant that will identify exactly which apps will best suit each business. The result is a tradies app suite that operates seamlessly and provides business owners with every feature they require to run a paperless office.
