

Trend Micro Worry-Free Business Security offers NewLease's Microsoft resellers new opportunities to engage customers

Trend Micro and NewLease join forces to help small businesses grow securely

Trend Micro Incorporated (TYO: 4704;TSE: 4704), a global cloud security leader, today announced a new initiative with subscription software licensing specialist NewLease to distribute the latest version of its Worry-Free Business Security solution in Australia. Worry-Free is a purpose built security solution for small businesses and is fully integrated in the new Windows Server 2012 Essentials dashboard. Trend Micro Worry-Free Business Security 8 features industry-leading anti malware and data protection. It gives users peace of mind, knowing that their server, business data and devices are all protected. The solutions provide a secure, centralised, web based management console, integrated into the Windows Server Essentials dashboard. Users can manage all their devices from anywhere and can feel confident that data is safe. With Trend Micro Worry-Free Business Security 8, machines are protected from viruses, spyware, spam, malicious websites, and more. Microsoft Windows Server 2012 Essentials gives small businesses the power to grow through an integrated approach that protects data, promotes flexible work styles, and simplifies the path to the cloud. Specially designed with small businesses in mind it:provides a central server that can automate important activities like online data backup and protection of computersallows teams to easily share and organise business documentsprovides a platform for running line-of-business applicationsprovides remote access to data from any internet connected location or device. "Trend Micro has taken advantage of the built-in ability to include its security solutions in the single management console in Microsoft Windows Server 2012 Essentials," said Mike Heald, ANZ Windows Server Product Manager, at Microsoft. "This enables the users to have ease of management of the entire IT infrastructure, including security, reducing management costs for channel partners and small businesses." "Correct Solutions has always recommended Trend Micro security solutions, because of its commitment to providing leading edge solutions built for small businesses," said Wayne Small of Correct Solutions "Trend Micro's new relationship with Microsoft, around Windows Essentials Server 2012 reinforces this commitment to have the best solution for small business clients. I have confidence in the partnership with Trend Micro. Their ongoing solution range is truly 'Worry-Free' and has provided easy to install and manage security for customers." "Trend Micro's Worry-Free Business Security solution represents a powerful tool for Managed Service Providers to support customer security needs. As the leading software distributor for the service provider community in Australia, NewLease is looking forward to helping MSPs leverage the power of Trend Micro's Worry-Free Business Security solutions to deliver best of breed security offerings," said Boughty Canton, VP Product & Programs, NewLease. "Small businesses usually lack the resources to meet the growing threat from cybercrime. By working with Microsoft to integrate Trend Micro Worry-Free Business Security 8 and Windows Server 2012 Essentials, Trend Micro enables small businesses to benefit from cloud computing technology and mobile access by safeguarding their information. NewLease's monthly subscription model provides a much better fit for the majority of Australian and NZ resellers that offer a managed IT service to their customers," said Mark Sinclair, Small Business Director, Trend Micro ANZ. -Ends-About Trend MicroTrend Micro Incorporated (TYO: 4704; TSE: 4704), the global cloud security leader, creates a world safe for exchanging digital information with its Internet content security and threat management solutions for businesses and consumers.
