Austerity leads to anarchy when people can't afford to pay imposts of high taxes, double dipping on petrol excise with GST and indexed to inflation every six months.

Hecs demands of immediate payment, \$7 doctor visit fees, Disability job ultimatums, Death wish on persons 65 years +, Debt levy, Parents and high incomes taxed, Plus possible higher excise and taxes on cigarettes, beer and wine, the list goes on.

But you might say they have put a freeze on their salaries from any rises - Well that's after e.g. A backbencher's salary increased \$54,000 to \$195,130.00 and Ian Watt, Secretary to Department of Prime Minister rose a staggering \$40,000 to \$844,000! (source Sunday Mail 11 May 2014).

Make no mistake these measures will create such high loss of jobs and Canberra runs the risk of becoming a ghost town with loss of 15,000 jobs and the flow on to hospitality workers, food distributors and farmers will be enormous.

I say again- TUESDAY'S HORROR BUDGET IMPOSTS ARE UNNECESSARY!
