

Uniden releases new high-end series of ultra-compact, smart dash cams

Uniden is releasing two new high-end series of ultra-compact smart dash cams built for bright and low-light conditions with the DV30 featuring a 2.5k Video Resolution Front Camera and Full HD 30fps rear camera on the DV30R, with both providing a 140-degree wide angle lens.

The media release and high-res images are available to download [here](#).

Please let me know if you'd like further details or product for review.
