

US Microfilm giant announces new partnership

Imaging Australia New Zealand to Partner with E-Image Data

FOR IMMEDIATE RELEASE

Imaging Australia New Zealand Announces Strategic Partnership with e-ImageData

Regional, Australia, April 13, 2021—Expanding its dedication to providing first class cost-effective scanning solutions, Imaging Australia New Zealand (IANZ) is pleased to announce its strategic partnership with e-ImageData Corporation. This partnership will bring IANZ the ability to sell cutting-edge microfilm scanners to its customers throughout Australia and New Zealand that utilize archival scanning.

Customers rely on IANZ to assist them by ensuring all elements of their business technology work together for the unified benefit of their business. With an integrated approach, IANZ can provide a range of services tailored for each customer. These services include the best quality imaging and digitisation procurement solutions and microfilm conversion services. In addition, via its partners, IANZ are able to offer book scanning equipment and high-speed document scanning equipment, servicing both Australia and New Zealand wide.

“We are thrilled to be working alongside e-ImageData to provide our clients across Australia and the New Zealand region with a powerful microfilm tool. From our initial conversations, we could clearly see similarities in our customer base and the industries with which we serve, it was a unanimous decision,” said Mark Petts, Imaging Australia New Zealand Managing Director.

Known for their patented and innovative technology, e-ImageData’s ScanPro® product line is the most trusted and versatile microfilm scanner on the market. The ScanPro is affordable, durable, totally upgradeable, and can deliver both fast lookups and high-performance conversion scanning for all film types, the only microfilm scanner that has all of these capabilities. The ScanPro is quick to learn, easy to use, dependable, and ships with a 3-year factory warranty, the best in the industry.

“Our e-ImageData team is looking forward to working with IANZ to sell our ScanPro product line of microfilm scanners throughout Australia and New Zealand,” said James Westoby, President, e-ImageData.
