

USB Wall Socket meet All Australian standards

wommen died using cheap usb charger

We agree fully with the Australian governments warning to ensure your USB charger has passed our stringent Australian standards after a few incidents in the past week including a young woman that tragically lost her life from using a cheap USB device.

Whilst the USB Wall Sockets range of products are vastly different from the products that caused the fatality we still want to take the time to remind you all our products have passed all the required Australian safety tests but also remind you there is other Chinese copy USB Wall Socket on eBay that we can't be so sure about. If in doubt ask for the safety certificate.

Be safe people.
