

Viotel welcomes Bob Gregg to its board of directors

The Board of directors of Viotel Limited is pleased to announce the appointment of Bob Gregg as Executive Director with effect from 2nd April 2020. Mr Gregg is based in Brisbane, Australia from where he will actively contribute the growth of Viotel in the Australian Market.

Viotel Chairman, Dan O'Toole commented; "We are excited about Bob's appointment, he brings to Viotel a strong strategic understanding and network across our key market sectors. His appointment adds momentum to our growth, following the recent award of our first Australian based project."

Mr Gregg is currently Chief Executive Officer of Gadfly Pty Ltd, a risk management and performance improvement Advisory firm. Mr Gregg's experience in business spans senior executive and technical roles over 30 years. His experience encompasses a broad range of industries, namely: mining and resources, transport infrastructure, energy and the built environment.

Mr Gregg has previously held positions of General Manager Operations and Group Executive Queensland & New South Wales at pitt&sherry (Operations) Pty Ltd, Chief Operating Officer of the national and international Consulting operations of VDM Group Ltd, Executive General Manager Construction, Eastern Operations at VDM, and Director Barlow Gregg & Associates.

About Viotel Our mission is to empower businesses with better data for better decisions. At Viotel we believe knowledge is power, and understand the critical role data plays in managing risks, identifying opportunities and protecting business assets. Using 'plug and play' Smart Box technology, coupled with the power of Amazon Web Services, Viotel has created a data ecosystem. We believe in making smart technology smarter.

By continually investing in new technology and collecting and analysing data in real time, our cutting- edge solutions empower businesses to identify cost savings, increase productivity, streamline maintenance, increase OHS, monitor assets from any location and respond faster to emergencies.

Viotel currently has operations support in Australia and New Zealand.
