

## Wall of Fame for the #sophospuzzle - see who solved it and how fast

Blog post by Paul Ducklin, Sophos

By popular request, here is the Wall of Fame for the Skyfall #sophospuzzle. The puzzle closed at 1pm on Monday 05 November 2012, San Francisco time. (That's 2012-11-05T21:00Z.) You can still send in your solution [toduck@sophos.com](mailto:toduck@sophos.com) (until we have given away exactly how to solve it!), and you may even get onto the leaderboard, though not in a position from which you'll be eligible for a prize. The solvers marked with T-shirt icons below will each be receiving a cool new Naked Security T-shirt. Two names drawn randomly from all the correct answers received before the deadline will receive NERF gun prizes. Well done to everyone listed below. The leaderboard is in speed order - fastest at the top. Special congratulations to Phil Reah, who completed his solution in just under two hours.
