

Wedding Anniversary Getaways

Warming up this winter

As the cold weather sets in, we're thinking about all things nourishing and nurturing: hearty meals; conversations by the fireplace; and of course, bathing in hot springs.

There's a lot to love about the hot springs regardless of the season, but there's something profoundly restorative about soaking your body in a hot pool on a crisp night beneath the stars or falling rain.

We have created a selection of indulgent packages that combine the tranquil bathing experience of our Spa Dreaming Centre with overnight local accommodation to make your next wedding anniversary getaway extra special. Choose from four of our wonderful accommodation partners that each has something unique to offer.
