

Xplore XSLATE R12 Rugged Tablet Named “Best Enterprise Mobility Hardware” at Mobility for Business 2017

SYDNEY, Australia, Oct. 30, 2017 -- Xplore Technologies Corp. (NASDAQ:XPLR) today announced that its XSLATE R12 rugged tablet PC was recognized with the Mobility Award at the 2017 Mobility for Business tradeshow in France. The high-performance 2 in 1 Windows® tablet was named the “Best Enterprise Mobility Hardware of the Year” by a panel of 12 IT journalists and mobile industry experts who were impressed by its thoughtful rugged, yet innovative, design. They particularly liked that the XSLATE R12 was built for enterprise mobility use and that its professional-grade capabilities natively satisfy this market's more advanced mobile computing needs. “We are honored that these highly esteemed technology influencers find the XSLATE R12 rugged tablet to be the ideal mobile computing platform for professionals,” commented Brett Gross, ANZ Director of Xplore. “The performance-driven XSLATE R12 is the ideal solution for those in the field service, public safety, and manufacturing sectors, where the impact of Industry 4.0 is driving the need for more robust mobility solutions. This 2 in 1 tablet does not just accommodate these industries' wide range of specialised mobility requirements. It is by far the most adaptable to users' unique business processes and evolving workflow demands.” Xplore has leveraged its more than 20 years of rugged tablet experience, as well as feedback from its large installed base around the world, to design a rugged tablet that has been widely recognised in the industry. The XSLATE R12 rugged tablet was not just built to survive the harsh operating environments of industrial or even retail sectors. Every computing, communications and I/O component – along with every internal and external design feature – of this Intel®-powered tablet was thoughtfully engineered to deliver the highest performance rugged tablet on the market.
